The Town Hall building was built in 1873. Malta Township donated the building to Malta Historical & Genealogical Society in 1996. A charter group started rehabilitation of the building which had not been used in nearly 20 year. Donations from various persons and organizations started the project. To date much has been accomplished the building has been completely renovated. The building is now used by organizations and for private parties and toured regularly.

Display cases are filled with early Malta items and souvenirs. The archive library consists of voter rolls from 1859 and genealogical material on early settlers. Many early photos are on exhibit.

We welcome new members as they are the heart of our organization. Yearly dues paid by members make up approximately 35% of our operational budget. Please complete the membership form on the reverse of this brochure to join membership today or renew your membership.
